Say “aloha” to big wins in Bloxx Fruit by Swintt

Hit game studio’s new Hawaiian adventure comes packed with fruitful features

Get ready to pack your bags and escape to a tropical paradise in Bloxx Fruit – a new premium release from hot-shot software provider, Swintt, that comes locked and loaded with fruity Free Spins and big money wins courtesy of its unique Bloxx bonus feature.

Played out across a 5x3 grid that sees the reels filled with playing card values, fruit icons and toucan wilds, the game takes place to a backdrop of lush green foliage, with the gentle strumming of a ukulele enhancing the island atmosphere as players spin their way to top prize of 1,500x their bet.

One of the first things to note about Bloxx Fruit is the 5x3 stack of “Bloxx” that sits directly to the right of the reels. With these displaying a selection of prizes, all players need to do to get their hands on the cash is line up three or more dollar symbols from left to right during a regular base game spin.

When this happens, any dollar symbols on the base game reels will light up the corresponding Bloxx and all values will be added together and awarded as an instant-win prize. In this manner, it's possible for players to collect all 15 Bloxx prizes on any given spin, creating potentially huge payouts.

The second feature to look out for in Bloxx Fruit is a Free Spins mode that comes with a bit of a twist. Activated whenever players land three or more island girl scatter symbols anywhere on the reels, they'll receive 10 feature games before being transported to a new set of even more lucrative reels.

Here, not only will extra dollar symbols be added to the reels, but the toucan wild symbol can now substitute for dollars as well. These factors combined make it far easier to trigger a Bloxx win and also increase the likelihood that more Bloxx will be highlighted, thereby boosting the total prize.

As a final consideration, any wins that are landed in the base game can also be gambled using Bloxx Fruit's Risk feature. Here, players will be asked to try and predict the colour or suit of a random playing card to double or quadruple their prize respectively, with a maximum of 10 picks available.

David Mann, Chief Commercial Officer at Swintt, said: "If the cold weather's got you down, Bloxx Fruit provides the perfect island getaway. With instant-win Bloxx prizes and a rewarding Free Spins feature, our new premium slot provides players with a taste of paradise, whatever stakes they play."
