

Press Release — 11<sup>th</sup> October 2021

## Swintt unites with The Mill Adventure

**Developer's suite of top-performing slots soon available to the platform provider's players in core markets such as Sweden and Malta jurisdictions**

Swintt, the online casino content developer whose games are in high demand, has put pen to paper on a deal that will see it provide renowned iGaming platform provider The Mill Adventure with its suite of popular slots.

By joining forces with Swintt, The Mill Adventure will be able to make the developer's games available to its players for the first time with slots set to be rolled out at big-name brands such as Frank & Fred, Klirr, and Casinobud.

This includes titles such as Lone Rider XtraWays™, the first slot to feature the developer's innovative XtraWays engine. Players can increase the winning potential by collecting XtraWays icons that drop at random across all reels. They then expand and contract based on the symbols collected.

Each of Swintt's titles has been developed and localised specifically for growth markets such as Malta and Sweden allowing The Mill Adventure's online casinos to meet the different player requirements and preferences in each jurisdiction they target.

**David Mann, Chief Commercial Officer at Swintt**, said: "In The Mill Adventure we have a partner that aligns with our mission to deliver the best online casino experience to players through highly localised games that not only meet but exceed expectations.

"This partnership will allow us to make our games available to more players than ever before and especially in fast-growing markets such as Sweden and Malta jurisdictions. This is a great deal for us and one that will also benefit The Mill Adventure and its players.

"We look forward to seeing players spin the reels on titles such as Lone Rider XtraWays and upcoming major release Book Of The East and for them to enjoy thrilling experience they deliver with each spin."

**Bjornar Heggernes, Head of Casino at The Mill Adventure**, said: "Our brands have built large and loyal player bases due to the superior experience we offer and much of this comes down to the content that we stock in our AI-driven SmartLobbies.

"Swintt has quickly emerged as one of the most in-demand developers in the market so adding a suite of its slots to our portfolio was a no-brainer. This is a great partnership that allows us to continue to provide our players with an online casino experience like no other."
