

Press Release — 15th November 2021

Swintt slots to go live at Fair Play Casino

Slot innovators to make their Netherlands online debut by offering portfolio of games at regulated Dutch casino site

Swintt, one of the most in-demand game developers, has expanded its geographical reach into the thriving Dutch market after striking a deal with Fair Play Casino.

The new arrangement represents Swintt's first steps into recently-regulated Dutch gaming market and marks a significant step in the evolution of the company, with Netherlands players soon able to access games in their slot and premium slot collection online from the comfort of their own homes.

Fair Play Casino is one of the biggest regulated operators in the Netherlands and is looking forward to working with Swintt in their new online operation, with their bricks-and-mortar gaming venues featuring many of the provider's premium games. As such, the studio has already built up a large fan-base in the country and the new deal will further strengthen their presence in the market by bringing Swintt slots to a new audience.

This means that Dutch players will now not only be able to enjoy the premium games that they know and love such as Master of Books and Extra Win but they'll also get to try out smash hits from the Swintt select line-up such as Book Of The East and a host of other top titles.

The online partnership between Swintt and Fair Play Casino Online also comes at the perfect time for players, with the software provider set to launch its hotly-anticipated Rock n' Ways XtraWays slot this month. The upcoming game has been in the pipeline for a few weeks now and has created plenty of buzz in the industry thanks to a unique pay system that offers players up to 262,144 ways and up to 25,000 x bet to win

The slot begins on a conventional 6x3 reel matrix, but every star symbol that appears will add additional spaces to the reel it lands on. In this manner, the game

board can be expanded up to a massive 6x8 layout, with this configuration unlocking the slot's maximum number of win lines. On top of that, players can also trigger up to 25 Free Spins on their current layout for potentially huge prizes.

With that exciting addition to look forward to and a range of other great options already available, the new partnership will certainly help Swintt raise their profile in the regulated Dutch market, while also allowing Fair Play Casino Online to deliver on their promise of providing the very best slots to players.

David Mann, Chief Commercial Officer at Swintt, said: "We're thrilled to be taking games from our slot and premium slot collection live at Fair Play Casino Online. The latter are already hugely popular with Dutch players due to their presence in Fair Play Casino's live venues, while the former will introduce them to a world of great games as we make our first steps into the Dutch regulated online market."

Pascal Janshen, Content Manager at Fair Play Casino: "We are very excited about our partnership with Swintt, as they give us the opportunity to offer our online players some of their favorite games which they have gotten to know and love in our landbased casinos, such as Moon Oak and Seven Seven. Besides these "classics", we are confident that Swintt's newly developed games will become equally popular and an appreciated addition to our existing game portfolio.
