

Press Release — 1st November 2021

Swintt slots set to debut at Mr Vegas

Software provider's catalogue of games will soon go live at Malta-based online casino

the market-leading software brand for highly localised slot games, has announced it will be further strengthening its online presence while carving out further footholds in the Maltese and Swedish igaming markets through a partnership deal with Mr Vegas.

Mr Vegas, an online casino platform that offers slots, table games and live casino to customers across the UK and Europe, holds licenses with both the Malta Gaming Association and the Spelinspektionen (Swedish Gambling Authority) – meaning that players in these markets will be able to access Swintt's collection of top-performing slots ahead of a busy month of exciting new releases.

By the time software developer's games go live at Mr Vegas, they'll already be able to enjoy the innovative new slot Book Of The East. Featuring five reels and 10 lines to win, Book Of The East is the first title by Swintt to include a Buy Feature option, meaning players can elect to pay an additional wager in order to gain access to a Free Spins bonus round that is further enhanced by expanding symbols.

On top of that, they'll also be able to look forward to the highly-anticipated Rock n' Ways XtraWays™, an upcoming release that features Swintt's revolutionary pay system. In the game, players will be able to collect special XtraWays™ symbols that add up to five additional reel positions on the next spin, with this process continuing until the maximum possible number of 262,144 ways to win is reached.

Couple those two new additions with an existing catalogue of games that includes popular titles such as Lone Rider XtraWays™, Sea Raiders and Book Of The West and Mr Vegas players will certainly have a wealth of options to choose from when Swintt slots make their debut on the platform later this month.

David Mann, Chief Commercial Officer at Swintt, said: "Through our partnership with Mr Vegas, we'll be able share our slots with new customers across Malta and Sweden. Whether they're playing established classics or taking some of our exciting

new releases for a spin, we're sure they're going to love the innovative features and unique pay systems that have made Swintt slots such a success."

William Ahlberg, Head of Commercials at Mr Vegas added: "At Mr Vegas, we pride ourselves on offering players an extensive selection of hand-picked games from the biggest software providers in the industry. As one of the rising stars of 2021, we're delighted to be able to add Swintt slots to our collection and we look forward to hosting some of the big upcoming releases they have in store for us this year."
